	2020 R2	Not Supported	Not Supported	Not Supported	Supported	Not Supported	Not Supported	Not Supported	Preferred	Preferred	Preferred
	2021 R1	Not Supported	Not Supported	Not Supported	Supported	Not Supported	Not Supported	Not Supported	Preferred	Preferred	Preferred

- Supported
- Preferred
- Not Supported (versions not supported are due to these not having remastered versions of Sage 200 from Sage that support Cloud ID and TLS 1.1/1.2)

Sage 200 2020 onwards is preferred due to changes in the Sage 200 API since Summer 2019 that decreases the time required for each sync.
